maximum of 3 weeks

Camp Activities:

VRAcademi Future Technology Summer Camp, Dubai 2025 offers an exciting blend of learning & exploration. Students will immerse themselves in-

- ✓ Virtual Reality Adventures
- ✓ Robotics & Coding Projects
- ✓ Game Design (Fortnite Creative)
- ✓ Film Making & Podcast Session
- ✓ Art & Design Challenges
- ✓ Interactive Smart Wall Learning
- ✓ Public Speaking & Presentations
- ✓ Weekly Showcases & Certificates

Weekly Themes:

Sustainability

- Clean Oceans
- Eco-games
- Earth-focused Projects

Space

- Mars Missions
- Space Games
- Astronaut Podcasts

Creative Future

- Future Cities
- Inventions
- AI Art

Entrepreneurship (Shark Tank)

- Build a Business
- Pitch your Idea!

Activity Details:

VR Edutainment & Learning:

Children will step into immersive virtual worlds using age-appropriate VR technology & sitting experience — diving underwater with sharks, visiting whales & exploring the moon & Mars. These experiences make science & nature fun, safe & exciting. They'll also get introduced to futuristic tools in simple, engaging ways to spark their imagination about tomorrow's world.

Interactive Wall & Quizzes:

Participants will interact with a digital wall & engage in fun quizzes, puzzles & educational games using touch & movement. This keeps learning playful & helps reinforce key topics from each week's theme.

Film Making & Storytelling:

Children will create their own short films by writing simple stories, drawing scenes & recording video content. Whether it's saving nature or exploring life on Mars, they will learn how to express their ideas creatively.

Activity Details:

AI, Robotics & Coding:

Participants will work on fun, hands-on projects like building a robot that recognizes road signs or coding a motion sensor alarm. Activities are designed to introduce basic tech concepts through play & guided instruction.

Creative Game Design:

Using beginner tools & Fortnite's creative mode, children will build fun digital worlds such as eco parks, space zones, or their own future city. These projects help them develop spatial thinking & creativity in a game-based format.

Art & Design:

Children will use crayons, paints & digital tools to create colourful space paintings, dream inventions & logos for their own products. They'll also experiment with VR drawing to bring their ideas to life in 3D.

Activity Details:

Podcast Sessions:

Participants will take part in simple, guided podcast-style sessions where they share thoughts on the Earth, future ideas, or what excites them most. These activities build communication skills & boost confidence in self-expression.

Presentation & Graduation Ceremony with Parents:

Parents are invited to a joyful closing event where children will showcase everything they've created—from art & films to inventions and games. The event includes a creative auction & “Shark Tank” style presentations to celebrate their journey.

Activity Schedule:

Activity	VR Edutainment & Learning	Interactive Wall & Quizzes	Film Making & Storytelling	AI, Robotics & Coding	Creative Game Design	Art & Design	Podcast Sessions	Presentation & Graduation Ceremony with Parents
Week 1: Sustainability	Explore the Deep Sea, Dive with Sharks & learn about whales	Recycle Games, Kahoot	Nature Heroes Short Film	Road Sign Robot	Eco Map (Fortnite Basics)	Crayon & VR Art	Earth & Us Talk	Showcase + Creative Auction
